## Profile

HR Operations Associate with over 3 years of experience using HR tools, simple automation and data to run everyday HR processes. Built custom performance tools, set up automated tracking sheets, and managed shift schedules, compliance, and employee events. Focused on cutting down repetitive manual work using AI tools while giving employees quick and clear HR support.

## Work Experience

**Neotas** , *Associate - HR & Operations* *11/2023 – Present | New Delhi, India*

**HR Operations & Employee Lifecycle Management:**

- Handled complete digital employee lifecycle workflows in Keka HRMS, managing onboarding, background verification (BGV), probation tracking and exit/offboarding formalities.
- Managed attendance logs, leaves, and monthly payroll data coordination with the Finance team.
- Coordinated employee asset allocation, recovery, and general office administrative operations.

**HR Ticket Management, Query Resolution & Service Standards:**

- Managed HR support tickets in Jira single-handedly, within strict Turnaround Time (TAT).

**HR Reporting, MIS Dashboards & People Analytics:**

- Built and maintained monthly MIS dashboards tracking attrition rates, HR ticket TAT adherence, Survey feedbacks and attendance insights.
- Monitored external employer review platforms to analyze feedbacks and insights.

**Policy, SOP Development & Compliance Audit**

- Drafted and updated Standard Operating Procedures (SOPs) and core HR policies to standardize internal processes.
- Supported ISO audit evidence preparation, managing asset documentation, access control logs and compliance records.

**Recruitment Coordination & Employee Engagement:**

- Coordinated recruitment operations by sourcing candidates, conducting screenings, and coordinating interview schedules.
- Managed company-wide employee engagement initiatives, townhalls, policy roadshows, core committee tracking, and Rewards & Recognition (R&R) programs.

**HR Technology Adoption & Process Improvement:**

- Streamlined routine HR administration through automated tracking frameworks, and centralized document repositories in SharePoint and Keka.

## Key Projects & Initiatives

- **In-House Performance Platform:** Designed and built an internal performance evaluation tool using AI tools based on company KPIs to make reviews easier for managers and employees.
- **Automated HR Reporting:** Set up simple automated trackers for processes insights to remove weekly & monthly manual reporting.
- **Shift & Workforce Tracking:** Built and managed a tracking process to manage and schedule rotational shifts for team members for 24 by 5 support.

- **Compliance Training Materials:** Created simple training material and decks for POSH, ISMS, and Phishing Awareness to help with employee training and ISO audits.

## Technical Skills & Competencies

- **Tools & Platforms:** Keka HRMS, Jira, MS Excel, MS Forms, SharePoint, MS Office 365.
- **AI Tools:** Claude, ChatGPT, Google Gemini, Microsoft Copilot, Manus AI.
- **HR Operations:** Onboarding, Offboarding, Background Verification (BGV), Leave & Attendance, Asset Management.
- **HR Analytics & Process Improvement:** MIS Dashboards, Attrition Analysis, Employee Satisfaction Survey (ESS) Analysis and Workforce Metrics
